## Recommendations on Selecting Logistics Companies

Dear participants  
of the 16<sup>th</sup> FINA World Championships,

When planning international shipment, the Organising Committee recommends using the services of companies that have extensive experience of international shipment and knowledge of Russian customs regulations.

You can select a logistics company independently, or use the services of our partner.

The Organising Committee has selected **DB Schenker** as an official international transportation and logistics services company.

DB Schenker, the transportation and logistics division of Deutsche Bahn AG, is one of the world's largest providers of integrated logistics services. The company offers ground services, air and sea shipment, logistics solutions and global supply chains management – the full range of logistics services from a single provider.

The global network of DB Schenker is represented in more than 2,000 offices in 135 countries around the world. CJSC Schenker [www.dbschenker.com.ru](http://www.dbschenker.com.ru) is the Russian division of the network.

In the appendix, you can find the contact details of branches of DB Schenker in your countries.

Please note that official delivery locations for foreign goods in Kazan are:
